EXPERIENCE

Eduvy Technology Pvt Ltd

Mar. 2025 – Present

Software Developer (Frontend Focus)

Remote / Office

- **Led front-end development** and architecture strategies for modern, large-scale web panels (College Panel and Super Admin Panel), strictly executing core UI/UX and human-computer interaction principles.
- Spearheaded a critical platform migration, building a high-performance alternative to the existing mobile app using **Angular**, substantially improving cross-platform accessibility and performance scaling.
- Architected and delivered production-ready modules following strict coding standards, including a complex, multi-step dynamic Admission Form and an end-to-end student workflow tracking engine.
- Collaborated effectively within Agile sprint models with cross-functional product stakeholders, engineering peers, and QA teams to translate structural requirements into reliable web applications.
- Championed overall codebase health by actively participating in regular code reviews, driving clean abstractions, structural refactoring, and strict linting parameters.
- Designed and implemented a modular library of **reusable UI components** and shared data services, cutting boilerplate development redundancies and accelerating overall team velocity.
- Enforced application level safety and secure backend communications by introducing enterprise JWT authentications and custom client-side Angular HTTP Interceptors.

PROJECTS

Eduvy ERP System Web Component | *Angular, Architecture, UI/UX*

- Designed robust frontend systems optimized for institutional data management ecosystems, building responsive dashboards containing granular role-based authentication rules.
- Live Project: institution-erp.eduvy.in

Samaya E-commerce Platform | *Angular, Node.js, MongoDB, Nginx*

- Built a full-stack digital storefront experience emphasizing highly intuitive UI flows, custom checkout sequences, clear layout styling, and stable server routing via Nginx reverse-proxies.
- Codebase Architecture: [GitHub/Samaya](#)

Enterprise Admin Dashboard | *MERN, REST APIs, UI Component Design*

- Developed an internal user management interface integrating clean UI elements for massive data visualization matrices, handling secure API tracking tokens and fluid real-time web reporting graphs.

EDUCATION

Brototype

Jan. 2024 – Feb. 2025

MERN Stack Software Engineering Program (Educational Practicum)

Kochi, India

- Immersed in a strict project-centric accelerator emphasizing JavaScript systems architecture, database structures, complex client routing, and advanced Git tracking practices.

Bharathiar University

2020 – 2023

Bachelor of Computer Applications (BCA)

Coimbatore, India

SKILLS

Languages : JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, Python

Frameworks : Angular (Core Core Expert), React.js, Node.js, Express.js, RxJS, Component Architecture

Tools & Concepts : UI/UX Design, Git, GitHub, Version Control, REST APIs, MongoDB, PostgreSQL, Postman, Nginx, Agile/Scrum, Code Quality Engineering, AI Solutions
